

The Death and Resurrection of Jesus Christ, H. Lynn Gardner

Evolution: Good Science?, Dominic Stathan

Evidence for Creation, Tom DeRosa

Sergei Golovin asks for help with 1000 copies of each of these books. He says Dr. Gardner's books have been effective instruments for spreading the teaching of Christ in former Soviet Union countries. *Those nations were deprived of biblical truth for several generations, and comprehension of it is fragmented and often incomplete. Shortage of proper apologetics often results in superficial and easily shaken beliefs.* This book on the death and resurrection of Jesus Christ will be extremely important.

Dominic Stathan's and Tom DeRosa's books provide the most recent updates of the best arguments, in a popular format. Issues of origin are extremely important for shaping the worldview of post-communist generations. *Understanding life's meaning, value, and purpose demolishes strongholds of atheism, and prepares the soil for the seed of God's word,* Sergei says.

Sergei and his wife Olga left their home in Simferopol just prior to Russia's annexation of Crimea in 2014. They are now based in Kiev in mainland Ukraine. Sergei says, *We have published 30 books since the war started! Please pray with us for these powerful tools that help spread the truth of Scripture among unbelievers, strengthen the church's confidence in it, and equip God's people to proclaim it effectively!*
