

## BOOK CLUB *Members Area* July 2017 SPANISH

**13 Lessons in Christian Doctrine** Denver Sizemore  
**Walk in Discipleship, Leader Guide** Michael Householder  
**Walk in Discipleship, Student Book** Michael Householder

The July Book Club donations will help publish three books in Spanish, to be printed and used in Cuba.

**13 Lessons in Christian Doctrine** books have been used in the eastern part of the island. Harry Douglass received encouragement from a Cuban brother there saying, *there is a lot of enthusiasm for the Bible Doctrine study books. The brethren who are studying it say you should have come earlier with the books!*

Harry Douglass' co-workers in Cuba receive books that have helped in a new church plant.

Michael Householder, our field partner on these projects, says, *There are no Christian bookstores and very few if any books on Christian doctrine. This book is a part of my disciple-making system. It will also give me a chance to put it in the hands of many denominational churches nationwide.*

Michael teaches *Walk in Discipleship* in Cuba.

Those books, along with **Walk in Discipleship, Leader Guide** and **Student Book** will be used initially in the western part of Cuba. Michael has developed this Biblical presentation as a 24-lesson study for small groups. You can see these books in English on Amazon. Michael adds, *There are few or no small-group materials available in Cuba.*

*Walk in Discipleship* students in another church.

LATM has helped publish these and other titles in other languages where Michael and his teammates have been able to present the Church Growth System to church leaders. The program offers training in discipleship for the whole church, and has found enthusiastic response across denominations.
